

**Impacts of the Fourth Industrial Revolution on Port-City Integration
“World Port Sustainability Program Aspects”**

**Dato' Captain Razali Bin Yaacob
Founder and Executive Chairman, Netherlands Maritime Institute of Technology
(NMIT), Malaysia.**

Dato' Captain Razali Bin Yaacob graduated with a Master's Degree in Maritime, Education & Training (Nautical) from the World Maritime University at Malmo, Sweden, and is a qualified Master Mariner. Dato' Captain Razali has spent about 43 years of his career in the maritime industry. He served the national shipping line for 11 years before serving the Malaysia Maritime Academy (ALAM) for 11 years. He also served the offshore industry at Esso Production (M) Incorporated for several years before being the R & D Director and Managing Director of PELORUS. He had worked with a Dutch multinational and lived in the Netherlands for several years. He then partnered with the Dutch to be the Founder and Executive Chairman of the Netherlands Maritime Institute of Technology (NMIT); a University College offering specialised maritime programmes. Dato' Captain Razali has served as a Marine consultant for many national and international projects in Asia and the Middle East.
