

Mr. Danny Van Dessel

Digital Transformation Manager
Port of Antwerp

Danny joined the Port of Antwerp in 2020. Currently serving as Manager of Digital Transformation, he has successfully merged the competence centers of Digital Business Solutions and Data & Analytics. With extensive experience in process improvement, establishing shared services and implementing ERP systems, Danny has developed a deep understanding of the transformative power of combining high-quality data with robust applications. This synergy not only enhances decision-making and serves as a foundation for automation, but also forms the basis for successful AI use-cases. Guided by the motto "everything is data", Danny and his digital team at the Port of Antwerp-Bruges strive to simplify the complexities of modern systems, making them more accessible and efficient.
