A SUSTAINABLE DEVELOPMENT PERSPECTIVE FOR MEGA PROJECTS
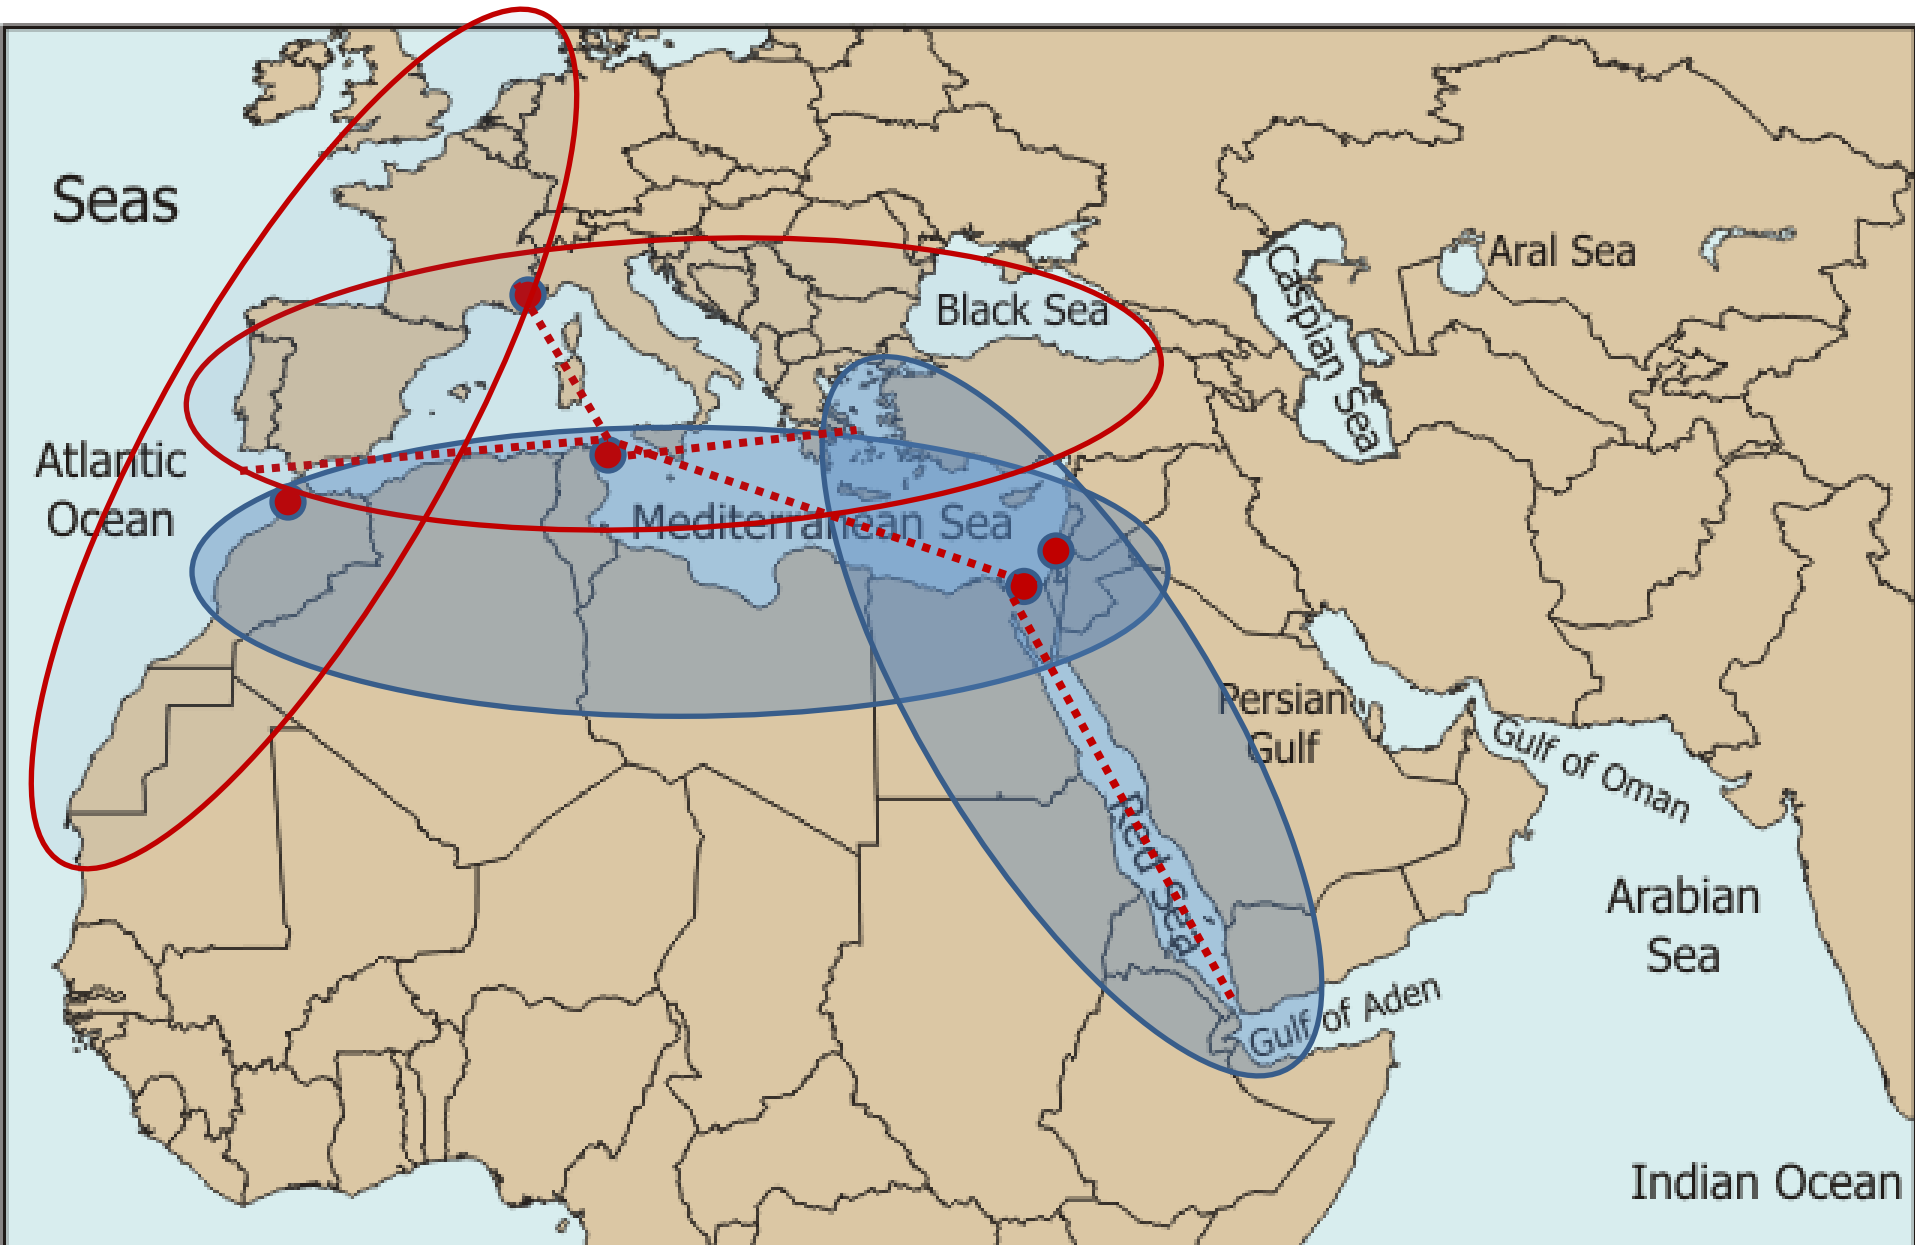

29 – 31 MARCH 2015

Note the red words!

1. “invest as much into the **relationships** between all players as we do into vessels and ports”
2. “**a wave of innovation lies ahead**. It brings huge opportunities and benefits.....**alternative fuels** and **shared mobility**”
3. “...continue to work together towards **global standards**...**which reflect our values**”
4. “..EU supports the uptake of **alternative fuels**.....**with binding commitments, for the deployment of alternative fuels infrastructure**...”
5. “..reaching out to our partners worldwide **to raise the security at ports** from where **leave for the EU**”
6. “.. by 2020 - an EU maritime transport **space without barriers**.”
7. “My vision is to create **value for people**. I believe that whatever we do, **we do it for and with people**”
8. “I would urge you to see **sustainability** **as an opportunity** ...”
9. “..events that challenge **the very values** on which our Union is founded”
10. “....change this situation and .. work on the causes ... **even if they are not directly linked to transport**.”
