

## The International Maritime Transport and Logistics Conference Marlog 12

### Innovative Technologies for Ports and Logistics Towards a Sustainable Resilient Future

## Gheorghe Militaru

Professor, University POLITEHNICA of  
Bucharest, Romania.

GHEORGHE MILITARU received the B.S. degree in Technological Physics from University of Bucharest, Faculty of Physics, in 1984, and the B.S. degree in Finance from the Bucharest University of Economics Studies, Faculty of Finance and Banking, in 2005. He received the Ph.D. degree in Management and Industrial Engineering at University Politehnica of Bucharest, in 1996. He is also Certified Business Counsellor in Small Business from Washington State University, USA (1997). Since 1991 he joined the University Politehnica of Bucharest. Prior to his academic career he worked as a researcher for Research Institute for Electrical Engineering of Bucharest, Romania in the field of renewable energy. Now, he holds a position of Full Professor in the Department of Entrepreneurship and Management at the Faculty of Entrepreneurship, Business Engineering and Management, from University Politehnica of Bucharest, Romania. His research interests include service management, financial management, production management and engineering, information systems for management, digital marketing, and technology entrepreneurship. He is an active member in Romanian and international professional associations in management and engineering. He has published more than 110 papers in journal and proceedings of various conferences (more than 70 are ISI indexed), and 11 books. Professor Militaru has been a co-chair of many conferences including ICMIE and QMHE. He successfully supervised 12 Ph. D students. He also acted as project leader in more four funded research projects (funds from Romanian Ministry of Research and Education and European Union).
