

The International Maritime Transport and Logistics Conference Marlog 13

Towards Smart Green Blue Infrastructure

Dr. Thibaut Van Zwijnsvoorde

PhD, Civil Engineer, Nautical Researcher,
Flanders Hydraulics Research, Belgium.

Dr. Thibaut Van Zwijnsvoorde has a major in civil engineering and a PhD in Maritime Engineering. He now works as researcher at Flanders Hydraulics and manages the towing tank research at their two shallow water towing tanks. His research focusses on maneuvering in shallow and confined water; over the last years, he has been involved in developments on autonomous shipping, launching the focus domain ASHIP – Autonomous Ship Innovation Platform – at Flanders Hydraulics.
