

The International Maritime Transport and Logistics Conference

Marlog 13

Towards Smart Green Blue Infrastructure

Dr. Zhao Nan

**Deputy Secretary-General of Shanghai
International Shipping Institute**

Dr. Zhao Nan has long been engaged in port researches including regional port development strategic planning, port development policy studies, port management, shipping center and other related studies. She hosted the annual compilation of *Global Port Development Report* (Quarterly and Annual) and developed the Service Efficiency Index of global major container ports using AIS big data academic. She also undertook more than 100 port research projects entrusted by the government and enterprises. Many of her special reports have been approved by national leaders and provincial and ministerial leaders.
