

**Impacts of the Fourth Industrial Revolution on Port-City Integration
“World Port Sustainability Program Aspects”**

Name: Ms. Carolina Navarro Correcher
Job Title: Mobility, Cruises & City-Port Director

Carolina Navarro began working at the Valenciaport Foundation in 2007 and is the Director of Port-City, Mobility and Cruises. She has extensive experience in both national and international projects in the field of logistics and intermodal transport, all of which are focused on promoting more sustainable modes of transport by helping to mitigate climate change and integrating in a more efficient way the port-city interface. Most of the projects in which she has participated are financed by the European Commission through programmes such as the EFC, Interreg Med, ENI CBC or H2020. She also collaborates as professor with the University of Valencia in the Master's Degree in International Economics and has participated in various courses organised by the Inter-American Development Bank (IDB).

She has a degree in Industrial Engineering from the Polytechnic University of Valencia and holds a Master's degree in Port and Intermodal Transport Management from the University of Comillas (ICADE)
